Airports shall be planned and operated in accordance with applicable Federal regulations and controls.</p> <p>b. Private landing fields shall be located at least 500 feet from property lines.</p> <p>Sub-Section 3.5 specifically</p> <p>a. All buildings and outside activities associated with the use shall setback a minimum of 300 feet from the nearest off-site residence, residential zoning district, or subdivision intended primarily for residential land use.</p> <p>Sub-Section 3.6, specifically</p> <p>a. Sanitary facilities shall be provided.</p> <p>b. Not more than 10 campsites per acre shall be provided.</p> <p>c. Individual campsites, roadways, and accessory structures shall be located to meet the minimum building setback standards from the exterior property lines of the camp ground.</p> <p>Sub-Section 3.8, specifically:</p> <p>a. A plan be submitted demonstrating protection of adjacent properties and public interest which shall include but not be limited to the following:                  (1) The resource development activity, all accessory uses and structures, internal roadways, and driveways onto the adjacent streets shall be setback a minimum of 100 feet from the perimeter property boundaries or 200 feet from the nearest off-site residence, residential zoning district, or subdivision intended primarily for residential land use whichever distance is greater. This setback standard may be reduced if less of a setback is approved in writing by the adjacent property owner or owners prior to site plan approval or if the adjacent property is also used as a resource development activity.                  (2) A plan of vehicular access to and from the site demonstrating that heavy trucks and equipment will not travel on that portion of a local or minor collector street with frontage containing residential land use, used for residential land use, or containing subdivisions lots intended primarily for residential land use. For purposes of this requirement, local and minor collector streets shall be those identified in the local government comprehensive plan and the Tallahassee-Leon County Long Range Transportation Plan.                  (3) A land reclamation plan shall be submitted demonstrating that upon termination of the activity, the land shall be returned to a condition that will allow an effective reuse comparable to surrounding properties.</p> <p>Sub-Section 1.2, 3, specifically:</p> <p>a. Structures shall be erected for a period of time not to exceed 15 days.</p> <p>Sub-Section 1.5, specifically</p> <p>a. Such uses shall be at least 1,000 feet from an existing residence, residential zoning district or subdivision intended for residential land use.</p> <p>b. Where provided, artificial lighting shall be designed to eliminate the possibility of glare on adjacent properties.</p> <p>c. Public sanitation facilities shall be provided.</p> <p>d. Direct vehicular access has to be provided to an arterial or major collector roadway as identified in the adoptive local government comprehensive plan.</p>
